

Ball and Burlap/ Tree Spade

Ball and Burlap

NativesWest Nursery now has ball and burlap (B & B) in stock! We carry mostly native trees and shrubs. Call or e-mail us for our B & B pricing and species availability, or fill out our catalog and request form on the catalog and request page and let us know what your looking for!

We can also take special orders not listed in the guide, depending on species and availability. Please call us or email us (info@nativeswest.com) to get answers to any of your questions.

Scroll to the bottom of the page to get details on GNR Tree Spade, a service NWN provides where we will transplant or remove large, live specimen trees!

Some of our evergreen specimens:

Picea abies (Norway spruce).

Picea pungens with its variety of greens and blues.

Abies concolor (Concolor fir).

Picea engelmannii (Engelman spruce).

Picea pungens 'glauca' (Colorado blue spruce).

Pseudotsuga menziesii 'glauca' (Douglas fir).

Preparing a load of Doug fir for southern Idaho.

GNR Tree Spade Service

Do you have a large tree or shrub that you would like removed or relocated without killing off the plant?

Natives West Nursery proudly offers you GNR Tree Spade, LLC. GNR can remove or relocate larger live trees and shrubs at reasonable rates. We travel throughout most of Idaho and into eastern Washington and western Montana, depending on location.

If you would like to contact GNR tree spade, you can either call Natives West Nursery at (888) 926-7707 or Robert's Tree Service at (208) 983-2473, or email us here at info@nativeswest.com.
